PAGES 1 ENCLOSURES (NO. & TYPE) _____

REMARKS _____ 25X1

_____ 25X1

1. On 25 August 1954, it was determined that the signal unit and engineer unit from the Alte Grenadier Kaserne in Schwerin were absent from the post and employed at harvesting crops from about 19 to 27 August. The engineer unit has been stationed at the installation since early August. Other information indicated that the above units and a KVP unit from Sternbuchholz were to be absent from their posts between 2 and 22 September to participate in field exercises.¹ 25X1
2. Between 18 August and 21 September, the Kavallerie Kaserne at Pasewalk was only lightly occupied. There was an intensive rotation of troops between the caserne and the training area in the woods north of Pasewalk. In early September, the AAA unit left by rail for firing practices at air targets on Auf dem Darss. The trains were unloaded at the Barth railroad station. 25X1

1. Comment. A transfer of the engineer battalion from Prora to Schwerin has not been confirmed. It is believed that Division Schwerin conducted field exercises, possibly at Rugen Island, in September 1954. Another report indicated that the 2d Inf Bn Rostock moved to Rugen Island in August 1954. 25X1
2. Comment. elements of the AAA Regiment Pasewalk participated in firing practices near Zingst from 6 August to 2 September 1954. Other elements of the regiment probably rotated between Schwerin and Zingst in early September 1954. 25X1
